What happened…

April, 2016

VentureBeat Mobile Summit 2016 http://events.venturebeat.com/event/mobile-summit-2016/
Apr 4 - 5, 2016, Cavallo Point Lodge, Sausalito, CA

About:

'VentureBeat's invite-only Mobile Summit brings together senior leaders to discuss the strategies and technologies they are using to capture and engage mobile audiences — and accelerate business.'

With speakers from Google, Amazon, Uber, LinkedIn, Adobe etc… and topics like 'How to achieve extreme mobile growth through simple design', 'The future of mobile app distribution', 'Lightning rounds: Top mobile distribution trends' and so on…

HTC 10 launch http://www.htc.com/ca/smartphones/htc-10/

About:

'Meet HTC 10. The smartphone crafted with obsession. You get unprecedented control. Off the chart performance. And innovations like the world's first dual OIS for pro level photos front and back, as well as end-to-end 24-bit Hi-Res sound. We're redefining what a flagship phone is truly meant to be. And think you'll love the result.'

Google launches a tool to test your Android app for accessibility issues

https://play.google.com/store/apps/details?id=com.google.android.apps.accessibility.auditor

http://thenextweb.com/apps/2016/03/24/google-launches-tool-test-android-app-accessibility-issues/

About:

'Accessibility Scanner is a tool that suggests accessibility improvements for Android apps without requiring technical skills. Just open the app you want to scan, then tap the Accessibility Scanner button to find items in the app that might benefit from accessibility improvements. You can use this app to suggest changes to developers or to make changes yourself.'

Ionic Creator news and updates http://blog.ionic.io/ionic-creator-better-faster-stronger/

About:

Ionic Creator allows to prototype an app to close the deal - *Creator Closes the Deal: Sell your Client a Mobile App*
Improvements:
Smart Side-Menu and Tabs Systems
New Video Component
Better Button Customizations
And Much Much More...

Facebook Origami https://facebook.github.io/origami/

About:

'Origami is a free tool for designing modern user interfaces. Quickly put together a prototype, run it on your iPhone or iPad, iterate on it, and export code snippets your engineers can use.'

Facebook's new Origami Studio uses visual programming to create awesome app prototypes
